

Samples of Acceptable AHA BLS, ACLS, & PALS Cards

Note the American Heart Association Logo in upper right corner. On the reverse side of the card it will have an AHA Approved Course Trainer, location, and certificate number. Training from non-AHA vendors may say "Training in accordance with AHA Guidelines"; however, IU Health standard for resuscitation certification is the American Heart Association (AHA).

Samples of Non-Acceptable or Incomplete AHA Certifications

-AHA BLS is the minimal requirement for all providers. AHA Heartsaver **is not equivalent** to the AHA BLS competency.

-Providers completing the AHA online course **MUST** complete the certification process and complete the on-site skills assessment.

Samples of Non-Acceptable Non-AHA BLS Cards
