

To access the Cerner Learning Journey, click [here](https://iuhealthlearn.cerner.com) or type this link into your browser:  
<https://iuhealthlearn.cerner.com> . You should be directed to the following page:

Enter the Username and Password that you have been provided. You should see a page similar to the following screenshot. (*IU Health is utilizing standardized “Journeys”, so the title you see in your assignment may not be the same as your residency program; however, content in the Journey will reflect the basic information needed. Specialized content will be provided during the in person training.*)

Begin Stage 1 by simply clicking on the active link under “Current Stage”. The Learning portal tracks the Stage Progress per Learning Journey and has a graph. In addition, with every Stage, the portal will display how many Activities are remaining. Once you have completed the Journey it will be under “Completed Journeys” down at the bottom of the page.

You do not need to complete the activities in one sitting, though all activities in Stages 1 – 3 must be completed prior to the in-person classroom training.

To logout, simply click on the arrow/carrot at the top right next to your name and select “Logout:”
